

March 4, 1976

That is not the responsibility, it is not the proper role of this Legislature or any member of this legislature. What we are supposed to do is create certain guidelines and restrictions in which the free economy can operate in an open competitive equitable fashion. This amendment certainly does that. It provides that opportunity without providing any undue advantage or injuring any other person. Now Senator Chambers is possessed with the idea of punishment and law and order in this case. This is not a case of violation of the criminal law. This is a matter of varying interpretation which took a long period of time and a legitimate difference of opinion over the nature of the facilities and its ability to come within the confines of the statute. This Legislature is not an appeals court. This is not the Supreme Court and in effect, I don't believe that the data sheet before you, following this entire matter through the courts has any business on our desks. It is entirely irrelevant to the decisions that we have to make here. The plain and simple decision that we have to make is does this amendment injure the people of the State of Nebraska or does it provide them with an opportunity to receive better service from a financial institution. I think that clearly the testimony, the evidence and the facts should demonstrate that this will provide a convenient way for this particular banking institution to conduct business in a single location which is down town Omaha. This legislature has no proper responsibility or obligation to preclude them from engaging in that business activity. I think that the motion should be rejected.

PRESIDENT: Senator F. Lewis.

SENATOR F. LEWIS: Mr. President, I have a few questions for Senator Murphy. Senator Murphy, as Chairman of the Banking Committee, after this issue has been out two or three days here have you received any communications, correspondence in opposition to this bill other than those directly connected with the banking business?

SENATOR MURPHY: Senator Lewis until this came up this week I had no idea that there was such a thing going to happen. There has been no overture made to this Legislature to consider legislation.

SENATOR F. LEWIS: Have you had a number of phone calls and inquiries on this issue?

SENATOR MURPHY: I have not had any on this issue. I have had several in response to another letter that Senator Schmit sent out relative to another bank bill, but I have had no contacts relative to this issue personally, no sir.

SENATOR F. LEWIS: From bankers or anybody else?

SENATOR MURPHY: No sir.

SENATOR LEWIS: Gheeze.....let me give you some names.

SENATOR MURPHY: I would be delighted Senator Lewis, lets not continue this innuendo bit that has gotten us into this.

SENATOR F. LEWIS: Let me go back to the other questions, and I think that they are important particularly from your historical stand in this legislature. Now the facilities that exist there if this bill or this amendment doesn't pass, one of those
